Your feedback about our quality of care and your sense of personal achievement are among the cornerstones by which we measure our success and help guide us in the future to identify things we need to improve. We may from time to time ask you to complete surveys to assist us in this regard, or we may approach you more informally to request your input.

All persons receiving services have a right to file a complaint as a formal notice of dissatisfaction with the services of our staff. If such an occasion presents itself, please request a Complaint/Grievance form from any EPIC staff member.

We take the problems of our patients very seriously, so be assured that your complaint/grievance will be heard and receive the prompt attention it deserves.

Confidentiality of Records

Federal law and regulations protect the confidentiality of alcohol and drug abuse patient records maintained by EPIC Behavioral Healthcare. Generally, EPIC may not say to a person outside the program that a patient attends the program, or disclose any information identifying the patient as an alcohol or drug abuser unless:

(1) The patient consents in writing; OR
(2) The disclosure is allowed by a court order; OR
(3) The disclosure is made to medical personnel in a medical emergency or to qualified personnel for supervision or program evaluation; OR
(4) The patient commits or threatens to commit a crime either at the program or against any person who works for the program; OR
(5) In the case of communicable disease reporting; OR
(6) In the case of child abuse or neglect or elderly abuse reporting; OR
(7) In the case of harm or injury to self or others; OR
(8) In the case of third party payers; OR
(9) An investigation relating to the patient's death.

Violation of the Federal law and regulations by a program is a crime. Suspected violations may be reported to the United States Attorney in the district where the violation occurs.

Release of Information (ROI)

Sometimes other individuals or agencies may have information that gives us a more complete picture of you or lend their perceptions to what's happening. Receiving or sharing personal information about you from records with any other party will require your written consent. Should there be a need or potential benefit to sharing information with another party, we will first discuss this matter with you. If your permission is given, we will then assist you with providing written consent.

Assessment Process and Developing a Plan

Each individual entering our program will participate in an assessment process to determine the nature and the extent of the problems you are facing. Your assessment may include a nursing physical screen, a physical examination, lab tests, and a brief biopsychosocial assessment to help us better understand how we might be of assistance. Your honest answers will help us see how you view the situation and will assist us in working together with you to develop a plan that truly addresses your needs and goals. At any point, if something is not clear to you, please ask about it. This process helps the clinician and the person served identify the individual's strengths, needs, abilities, and preference for recovery so that an individual Care Plan may be developed.

EPIC provides Person-Centered planning for our participants. When developing an individual's Plan, EPIC seeks to include family and professional collaboration during planning, goal setting, and throughout service delivery. Regular opportunities for individuals to discuss progress towards their goals and provide feedback on their program is an important part of our treatment services.

Person-centered planning involves the development of a "toolbox" of methods and resources that enable people to be involved in the planning process, and to take ownership of their own paths to success. Professionals providing services help them figure out where they are, where they want to go and how best to get there. EPIC also encourages peer-to-peer support and networking among persons served. Our goal is for you to meet your goals!

Care Coordination and Transition / Care Planning

Your primary counselor and/or care coordinator will work with you develop a plan that will assist you to achieve the goals on your personalized Care Plan. Care plans will help you meet your goals and target dates, and keep you informed of your progress towards completion of your program. Your Care Plan will help you continue your success upon discharge from our care. This plan may include strategies to continue with your treatment for your substance use disorder, living arrangements that include safe and sober housing, employment options and/or continuing education, and additional services for your family. At your discretion, family members can participate in your care planning and will be invited to attend a session one of our campuses.

Transition and Discharge Criteria

Discharge Criteria:

Patients are successfully discharged when all treatment goals have been met. Examples include but are not limited to:

- Patient has been successfully detoxified or medical risks and is stable.
- Patient has accepted his/her addiction and/or mental health concern and commits to recovery in order to expect maintenance of a self-directed recovery plan.
- The patient has been successfully referred for follow-up care with the Care Coordinator.
- Patient's social support system and significant others are supportive of recovery to an extent that the patient can follow a self-directed recovery plan without substantial risk of relapse.

Other discharge circumstances may include:

- The patient has consistently failed to achieve essential treatment objectives despite revisions to the Care Plan and no further progress is likely to occur.
- Patient needs to be transferred to higher level of care or is stable and able to be transferred to a lower level of care.
- The patient decides to no longer participate in the program.

Transition Criteria

A patient can be transferred to another program service when it is determined by the Treatment Team that the patient would benefit from a higher or lower level of care, or a different program. A Transition Plan is developed by the primary therapist with the patient. When it is deemed appropriate for a patient to be discharged from a program, either successfully or not, a discharge summary is completed, sent to appropriate referral source, and placed in the patient's record.

Expectations of Persons Served with Legally Required Appointments, Sanctions or Court Responsibilities

In order for EPIC to provide the referred services you must agree to:

- Maintain an active Release of Information to your referral source in order for EPIC to continuously report your program status and progress to your referral source, regardless of discharge outcome.
- Legally required appointments or enrollments are expected to follow all of EPIC's rules and guidelines. Failure to do so will result in reports to your referral source.
- EPIC will make treatment recommendations only. EPIC will not make any legal recommendations to your referral source. If your behavior results in EPIC terminating your treatment program, you are solely responsible for any actions taken by your legal referral source.

EPIC Behavioral Healthcare
Online Therapy Consent Form

Online Therapy and Limitations
I understand that online therapy includes the practice of health care delivery, diagnosis, consultation, treatment, and education using interactive audio and video communication. I understand that discussing my presenting concerns may cause discomfort as difficult issues are addressed and worked through. This is often a common experience of psychotherapy in general and I acknowledge no guarantees have been made to me as to the effect of treatment on my condition. I understand that phone and online sessions have limitations compared to in-person sessions, among those being the lack of "personal" face-to-face interaction, the lack of visual and audio cues in the therapy process, and the fact that most insurance companies will not cover this type of therapy. I understand online therapy is not appropriate if I am experiencing crisis or having suicidal or homicidal thoughts. Should crisis occur, I agree to call 911, go to the nearest emergency room, or contact a crisis hotline (e.g. 800-273-8255).

Procedures for technical difficulties or Internet disruptions
As a client of EPIC Behavioral Healthcare, I understand that online therapy is technical in nature and that problems with the Internet may occur. If something beyond our control disrupts the connectivity of our session I will immediately try to video call the therapist again. If video call is repeatedly unsuccessful for 10 minutes, sessions will be:

1) completed via phone call to the therapist at **(904) 829-2273** or
2) refunded based on length of session prior to disruption (e.g. less than 10 minutes the session will be rescheduled at no cost, 15-30 minutes will result in half of the fee being refunded).

Appointment Payment
I agree to pay the agreed upon fee at the time of service through the EPIC Mental Health Outpatient Office in person or by phone. (e.g. through credit card or insurance on file, which will be charged the day of the appointment).

Appointment Cancellations
If cancellation is needed, I understand that notice of at least 24 hours via phone call to the office staff is necessary in order to avoid any associated fees. Cancellations with less than 24 hours notice will be billed at $25 per occurrence.

Missing an appointment without prior notice will be billed at $25 per occurrence. In addition, I understand that the accumulation of 3 late cancellations or missed appointments in any combination will result in discharge from the program.

Termination of Services
During the intake and first few sessions, the therapist will assess if online therapy is of benefit to me and my needs. The therapist will use his/her best judgment to determine if online therapy is the best medium for providing me counseling services. If online therapy is deemed inappropriate, the therapist will provide me with a number of referrals in my area so face-to-face counseling can be pursued.

Confidentiality:
Because online therapy utilizes the Internet for the transmission of personal information I understand the therapist cannot guarantee confidentiality of the personal information I provide via this form of communication. However, any information that I provide to the therapist will subsequently remain confidential and will not be given to a third party unless I give specific permission to release the information, or the therapist is required to do so by law. The issue of confidentiality is further governed by both law and ethics. I understand that the therapist follows the law and professional regulations of

the State of Florida and the counseling treatment provided will be considered to take place in the State of Florida.

By law I hold the privilege of confidentiality and the therapist will not release any information to anyone without my written permission, or a court order. There are some exceptions to my rights under the law. Examples include, but are not limited to, when the therapist has reasonable cause to believe that I am a danger to myself or another person. The therapist is also required by law to report any information about or reasonable suspicion of sexual, physical or emotional abuse of minors or elders to Child Protective Services or Adult Protective Services. I understand that if I have any concerns regarding confidentiality issues, I should speak with my therapist about these and other exceptions to the confidentiality privilege and her responsibility concerning them.

I understand EPIC Behavioral Healthcare has not given consent or release for the recording of this session outside the electronic platform used to deliver the service.

Harm to Self or Others

If there is an emergency during our work together where the therapist is concerned about my personal safety, the possibility of me injuring someone else or about my receiving proper psychiatric care, I understand the therapist will do whatever she can within the limits of the law to prevent me from injuring myself or others and to ensure that I receive the proper medical care. For this purpose, the therapist may also contact law enforcement, hospital or an emergency contact whose name I have provided.

By signing this form I agree with the above.
