#### **Release of Information (ROI)**

Sometimes other individuals or agencies may have information that gives us a more complete picture of you or lend their perceptions to what's happening. Receiving or sharing personal information about you from records with any other party will require your written consent. Should there be a need or potential benefit to sharing information with another party, we will first discuss this matter with you. If your permission is given, we will then assist you with providing written consent.

#### Assessment Process and Developing a Plan

Each individual entering our program will participate in an assessment process to determine the nature and the extent of the problems you are facing. Your assessment may include a nursing physical screen, a physical examination, lab tests, and a biopsychosocial assessment to help us better understand how we might be of assistance. Your honest answers will help us see how you view the situation and will assist us in working together with you to develop a plan that truly addresses your needs and goals. At any point, if something is not clear to you, please ask about it. This process helps the clinician and the individual served identify the individual's strengths, needs, abilities, and preference for recovery so an individual Care Plan may be developed.

EPIC provides Person-Centered planning for our participants. When developing an individual's Plan, EPIC seeks to include family and professional collaboration during planning, goal setting, and throughout service delivery. Regular opportunities for individuals to discuss progress towards their goals and provide feedback on their program is an important part of our treatment services.

Person-centered planning involves the development of a goals and tasks that enable people to be involved in the planning process, and to take ownership of their own paths to success. Professionals providing services help them figure out where they are, where they want to go and how best to get there. EPIC also encourages peer-to-peer support and networking among persons served. Our goal is for you to meet your goals!

Abuse is defined as including any non-accidental injury, sexual battery, financial of sexual exploitation or injury to the intellectual or psychological capacity of a person by the parents or other persons responsible for the child's or adult's welfare. Neglect is failure to provide adequate food, clothing, shelter, health care, or needed supervision.

# EPIC Behavioral Healthcare Online Therapy Consent Form

#### Online Therapy and Limitations

I understand that online therapy includes the practice of health care delivery, diagnosis, consultation, treatment, and education using interactive audio and video communication. I understand that discussing my presenting concerns may cause discomfort as difficult issues are addressed and worked through. This is often a common experience of psychotherapy in general and I acknowledge no guarantees have been made to me as to the effect of treatment on my condition. I understand that phone and online sessions have limitations compared to in-**person sessions, among those being the lack of "personal"** face-to-face interaction, the lack of visual and audio cues in the therapy process, and the fact that most insurance companies will not cover this type of therapy. I understand online therapy is not appropriate if I am experiencing crisis or having suicidal or homicidal thoughts. Should crisis occur, I agree to call 911, go to the nearest emergency room, or contact a crisis hotline (e.g. 800-273-8255).

#### Procedures for technical difficulties or Internet disruptions

As a client of EPIC Behavioral Healthcare, I understand that online therapy is technical in nature and that problems with the Internet may occur. If something beyond our control disrupts the connectivity of our session I will immediately try to video call the therapist again. If video call is repeatedly unsuccessful for 10 minutes, sessions will be:

- 1) completed via phone call to the therapist at (904) 829-2273 or
- 2) refunded based on length of session prior to disruption (e.g. less than 10 minutes the session will be rescheduled at no cost, 15-30 minutes will result in half of the fee being refunded).

#### Appointment Payment

I agree to pay the agreed upon fee at the time of service through the EPIC Mental Health Outpatient Office in person or by phone. (e.g. through credit card or insurance on file, which will be charged the day of the appointment).

#### Appointment Cancellations

If cancellation is needed, I understand that notice of at least 24 hours via phone call to the office staff is necessary in order to avoid any associated fees. Cancellations with less than 24 hours notice will be billed at \$25 per occurrence.

Missing an appointment without prior notice will be billed at \$25 per occurrence. In addition, I understand that the accumulation of 3 late cancellations or missed appointments in any combination will result in discharge from the program.

#### Termination of Services

During the intake and first few sessions, the therapist will assess if online therapy is of benefit to me and my needs. The therapist will use his/her best judgment to determine if online therapy is the best medium for providing me counseling services. If online therapy is deemed inappropriate, the therapist will provide me with a number of referrals in my area so face-to-face counseling can be pursued.

#### Confidentiality:

Because online therapy utilizes the Internet for the transmission of personal information I understand the therapist cannot guarantee confidentiality of the personal information I provide via this form of communication. However, any information that I provide to the therapist will subsequently remain confidential and will not be given to a third party unless I give specific permission to release the information, or the therapist is required to do so by law. The issue of confidentiality is further governed by both law and ethics. I understand that the therapist follows the law and professional regulations of

the State of Florida and the counseling treatment provided will be considered to take place in the State of Florida.

By law I hold the privilege of confidentiality and the therapist will not release any information to anyone without my written permission, or a court order. There are some exceptions to my rights under the law. Examples include, but are not limited to, when the therapist has reasonable cause to believe that I am a danger to myself or another person. The therapist is also required by law to report any information about or reasonable suspicion of sexual, physical or emotional abuse of minors or elders to Child Protective Services or Adult Protective Services. I understand that if I have any concerns regarding confidentiality issues, I should speak with my therapist about these and other exceptions to the confidentiality privilege and her responsibility concerning them.

I understand EPIC Behavioral Healthcare has not given consent or release for the recording of this session outside the electronic platform used to deliver the service.

Harm to Self or Others

If there is an emergency during our work together where the therapist is concerned about my personal safety, the possibility of me injuring someone else or about my receiving proper psychiatric care, I understand the therapist will do whatever she can within the limits of the law to prevent me from injuring myself or others and to ensure that I receive the proper medical care. For this purpose, the therapist may also contact law enforcement, hospital or an emergency contact whose name I have provided.

By signing this form I agree with the above.

- One (1) individual session for your youth

Failure to inform 24 hours prior to missed group or session may result in feedback to client's referral source and delay program completion. Excused absences may include serious illness with a doctor's note, approved school activities with a note from administration/coach or a death in the family.

If required to take a drug test via urinalysis or oral swabs, I agree to pay for all drug testing before receiving the completion certificate. I understand that our participation in the program is confidential and private. Information may not be given to people outside of this program without written permission, except for matters regarding abuse, neglect or intentions to harm self or others. Releases of Information will be obtained for referral sources such as States Attorney's Office, St. Johns County Sheriff and St. Johns County School District.

I have reviewed and understand the above statements.

# ABSTINENCE CONTRACT AND CONSENT FOR URINALYSIS/BREATHALYZER ADOLESCENT PROGRAM – THINK! For SUCCESS

I, \_\_\_\_\_\_ will remain free from all mood-altering drugs, including alcohol, while I am enrolled in any program at EPIC Behavioral Healthcare. This Abstinence contract begins today, \_\_\_\_ /\_\_\_ and will continue until the completion of my EPIC program.

Also, I agree to provide urine samples/breathalyzer analysis upon request as long as I am a client at the time the request is made. This is done to determine if I am using mood-altering chemicals and to evaluate my progress in treatment.

It is further agreed that I recognize the need of EPIC Behavioral Healthcare for the information provided through urinalysis/breathalyzer. I agree to pay the additional fee for urinalysis/breathalyzer testing. If I choose to contest the results of my drug screen, I agree to pay additional costs to send my sample to Redwood Toxicology Laboratory Detection Specialists, Santa Rosa, CA, for verification.

If I should breach this agreement, EPIC is entitled to terminate my relationship with the program.
